

Singularity University, the most innovative educational institution in the world, will perform for the first time in Peru the largest technological and business meeting in the country

- *Singularity University is the most innovative educational institution in the world, sponsored by companies such as Google and NASA; that seeks to develop solutions that impact in more than a billion people through exponential technologies.*
- *The event called SingularityU Peru Summit 2018 will take place on December 4 and 5 at Lima Convention Center.*

Singularity University, located in Silicon Valley, California, United States, is one of the most important educational entities in the middle of the largest innovation cluster in the world. Its purpose is «to gather, educate and inspire a group of leaders who strive to understand and facilitate the exponential development of technologies and promote, apply, guide and guide these tools to solve the great challenges of humanity». Each year, it attracts the attention of CEOs and executives of top management worldwide through transformational programs including the International Summits that in 2018 are being held in 14 countries around the world.

With the launch of the SingularityU Peru Summit 2018, "The best way to predict the future is to create it"; executives attending the event will have the opportunity to know directly, through international experts, applied cases of use of technologies such as Artificial Intelligence, Introduction to Exponentials and the Path to Abundance, The Future of Education, Medicine and Longevity, Economics and Finance, Robotics, Big Data and Automatic Learning, Blockchain and the Future of Trust, Alternative Energies and biotechnology, among others. All the exponential technologies that will transform our future and will impact more than one billion people.

In other words, these new exponential technologies of global impact will transform business models, education and public policies to adapt to a future of great changes and opportunities without precedents in the history of humanity.

The event will convene between 500 - 700 executives from all the sectors of the Peruvian economy through a platform that seeks to educate, inspire and empower leaders to identify the applications of new exponential technologies, which will allow them to solve large challenges of humanity. Its global ecosystem is present in more than 90 countries, and the Summit of Peru will be the summit number 14 internationally among America, Europe and Asia.

The SingularityU Peru Summit will allow peruvians to connect with this international community and make known the different developments that are taking place and that can be useful to solve the challenges of our national and global reality. With this meeting, we seek to make the experience of Singularity University more accessible directly in Lima without the need to attend the programs taught in Silicon Valley.

SingularityU Perú Summit will be held considering its local partner El Dorado Investments on December 4th and 5th at the Lima Convention Center. More information at www.singularityuperusummit.com
